3D is the star of the show in today's digital marketing — my focus lies in creating characters and animals for films, games, and advertising. As a creative professional, my mission is to deliver work that stands out, engages audiences, and makes a lasting impression.

With years of experience in developing 3D characters and animals that grab attention, I help businesses shape brand messages that truly stand apart. Along the way,

I've worked with clients such as Disney+, Audi, Ravensburger, National Geographic, ProSieben, SAP, Wilson, and Rains. Bold ideas, a willingness to experiment, and an openness to different perspectives are what guide my process.

Every story deserves to be told in a way that captures people's imagination — because, let's face it, boring stories are as exciting as watching paint dry. My goal is to bring ideas to life and add that subtle touch of magic that makes them memorable. Or, in the words of Walt Disney:

"If you can dream it, you can do it"

Efficiency

As your sole point of contact, waiting times are kept to a minimum. Any questions you may have can be resolved quickly via phone or email.

Affordability

As a freelancer, I can offer you cost-effective and flexible solutions without compromising on quality – an advantage compared to agencies.

Quality

My goal is to deliver the highest-quality results and to go the extra mile whenever needed.

Single source

By choosing me as your dedicated provider, you save valuable time on project management and can focus on other key responsibilities.

Integrity

I take great pride in my work and always approach it with the utmost care and responsibility – which is why I regularly seek your feedback.

Tailor-made

My services are fully customized to match your goals, audience, resources, budget, and specific needs.
